## **Fire Department Plan Review Process**

The majority of plans for residential and commercial projects must be reviewed and signed off by the Fire Department before permit issuance. You do not need to fill out any paperwork, bring plans or pay any fees to us; everything is done through the County Planning and Building department. We no longer issue Fire Safety Plans. The plans you submit to the County will be routed to us for review. Any corrections we need made will be noted and compiled with other departments comments/corrections and you will be issued a Plan Review Summary. The Fire Department corrections will need to be incorporated into your plans with an approved copy of plans housed on the jobsite at all times.

Please call 805 593-3490 if you have any questions.
